José F. Gutiérrez García

Software Developer

⚲ Barranquilla, Colombia ✉ josefgutierrezx@gmail.com 📞 +57 3006764477 in LinkedIn ↖ josegutierrez.live

🪪 PROFILE

Software developer specialized in the front-end area, with experience creating solutions for technology companies. The approach I take is to understand problems from a business standpoint, and propose solutions that are scalable, maintainable, and follow best practices. Passionate about learning, technology, and human sciences, I strive to grow as a professional and as a person every day.

💼 PROFESSIONAL EXPERIENCE

Frontend Developer   06/2022 – Present
ZanaCode
- As part of the development team, I work on building a mobile application for the tennis community.
- I work hand in hand with graphic designers to convert designs into code in the most precise way possible.
- My team practices agile methodologies, and there are developers with varying experience levels.
- Among the technologies I use are: React, React Native, TypeScript, Redux, CSS, and Node.js.

Jr. Project Manager   02/2021 – 02/2022
Hopets
- Planning schedules for the development team was one of my responsibilities.
- Improved productivity by implementing Agile Methodologies.

Administrative Assistant   01/2019 – 01/2020
Universidad del Norte, du Nord
- Supported inventory control and sales analysis processes.
- In order to make ordering supplies for restaurants more efficient, I automated the process.
